

PACKAGING TAPE COMPARISONS

GRADE	TAPE TYPE	Length Metres	CLEAR Code	BROWN Code	Coloured Code	Adhesive Type	Backing Thickness (microns)	Applications
PANDA	POLYPROPYLENE	100	635	634		Acrylic	25	Economy packaging tape.
GOOD	POLYPROPYLENE	100	633	632		Acrylic	28	Good stretch and plasticity. Thick acrylic adhesive works well on recycled board.
BETTER	POLYPROPYLENE	100	631	630		Rubber	28	Light to medium cartons. Particularly suited to low temperature applications .
BEST	POLYPROPYLENE	100	531	530		Rubber	32	Medium weight cartons. Particularly suited to low temperature applications .
GOOD	PVC	55		520		Rubber	34	Light to medium cartons where tough backing can resist bursting. High tack adhesive suitable for wide range of surfaces.
		55			521 White			
		66	501					
		100	526		525			
BETTER	PVC	66			540 Red Blue Green	Rubber	37	Coloured, Red, Blue, Green, Yellow. Suitable for fineline masking or medium duty packaging.
BEST	PVC	55	509	503		Rubber	60	Heavy weight cartons where tough backing can resist bursting and abrasion
BEST	STRAPPING	50	341			Hotmelt	100	Great longitudinal strength. Can replace metal or polypropylene strapping.
BEST	TENSILISED PP	50/200			598 Cream	Non Staining		Strapping, bundling, unitising and securing of parts on white goods where a non staining adhesive is required. Heavy duty
	POLYPROPYLENE	100	621			Acrylic	32	Recycled carton tape. Good UV resistance
MACHINE	POLYPROPYLENE	1000/1500	637			Solvent Free Acrylic	28	Machine Recycled Board
MACHINE	POLYPROPYLENE	1000	639			Rubber	28	Food Industry
GOOD	MASKING GP	50			244 Cream	Rubber		General Purpose Masking, for short term masking or temporary holding and craftwork.
BETTER	MASKING HT	50			223 Cream	Rubber	90	Automotive Masking Tape. Good resistance to paint thinners and clean removal. Highly conformable.
BEST	PAINTERS MASK	50			Green	Rubber		Trade Painting 8 day
BEST	DELICATE	50			Light Green	Rubber		Trade Painting Delicate Surfaces
